Education

Present – University of South Carolina, Columbia, SC
Bachelor of Science in Computer Science — Molinaroli College of Engineering and Computing
Relevant Coursework: Digital Logic Design, Algorithmic Design

Skills

Programming: Java | HTML | Python
Tools & Software: Microsoft Word | Computer Hardware | POS Systems
Languages: English | Intermediate Spanish
Core Strengths: Problem-Solving | Teamwork | Adaptability | Leadership | Time Management

Projects

Pixel Prison (Java Game)

- Built a real-time survival game in Java running at ~60 FPS, featuring player movement, a shrinking arena, bouncing enemies, and collision detection across a play area of 800×600 pixels.
- Programmed all graphics and logic, including 13 max active enemies, timed auto-shrink every 2 seconds, dynamic enemy spawns (from 1400 ms down to 500 ms), and full game-state handling (pause, restart, game over).

Experience

May 2025 – Present Forward Edge Marketing – Brand Ambassador, South Carolina

- Ensured product displays were fully stocked and organized across multiple military retail stores.
- Communicated with store staff to maintain brand visibility and compliance.
- Helped improve product restock accuracy by roughly 10% through consistent inventory checks.

Nov 2023 – Dec 2024 Lowes Foods – Deli Associate, Chapin SC

- Served an average of 60+ customers per shift while maintaining quality and speed.
- Supported promotional sales that increased deli revenue by an estimated 8% during peak months.
- Maintained cleanliness and organization to meet food safety standards.

Jan 2023 – May 2023 GNC – Sales Associate, Columbia SC

- Recommended products based on customer goals, contributing to a 12% rise in add-on sales.
- Handled cash and card transactions with accuracy and attention to detail.
- Developed customer-service and communication skills through daily interactions.

Sep 2022 – Jan 2023 Chipotle Mexican Grill – Crew Member, Irmo SC

- Delivered fast, friendly service during high-volume hours.
- Collaborated with team members to maintain efficiency during rush periods.
